CLASSIC TUBE
PROUDLY MADE
IN THE U.S.A.
SINCE 1989

The Classic Tube Story

Classic Tube is celebrating over 27 years of service to the Automotive Aftermarket.

Founded in 1989 by Paul and Lauren Fix, we saw a void in the classic car restoration market for preformed tubing products. The product lines included replacement tubing for brake, fuel, transmission and carburetor applications. The request for tubing grew and soon we had built a catalog of thousands of patterns that spanned from the 1930s to the present – for Cars and Trucks both Domestic and Foreign.

As more product lines developed, we added the Do It Yourself materials and tools for customers to fabricate tubing themselves.

Classic Tube also developed the StopFlex product line of D.O.T. Stainless Steel Braided Brake Hoses. These are manufactured as direct replacement brake hoses with factory ends and attaching brackets.

Today, Classic Tube has the largest and most complete inventory of original replacement tubes. We continue to be the primary source for the restoration market and are constantly developing new product lines to satisfy our customers' needs. Serving the classic car industry has given Classic Tube the privilege of supplying products to some of the most renowned restorers and collectors worldwide.

Our corporate headquarters and manufacturing are located in Lancaster, NY. With distributors located around the world, our large dealer network and direct sales provide our customers with the product they expect.

To achieve results that surpass industry standards, we utilize computerized tube bending equipment along with CMM scanning. With this practice, we can produce a higher quality product that is cost effective and delivered in a timely manner.

Classic Tube is a respected leader in preformed tubing products and serve customers in Automotive, Medical, Heavy Equipment, Military and Aerospace Industries. Utilizing the most current technology maintains superior quality control. Our mission is to provide a great customer experience.

Our commitment to exceptional quality and outstanding customer service is reflected in 27 years of satisfied customers. As a mark of our high standards, our products are made in our facility in Lancaster, NY, using all USA materials. Classic Tube has **always** been proud to say "Made in the USA."

Classic Tube's Commitment to Quality

Our products are made to last. We achieve our superior quality by using the best, USA-sourced materials and by employing strict quality control standards. All of our tubing is manufactured with computer controlled precision, on our state-of-the-art computerized CNC programmable tube benders, insuring exact duplication to OEM specifications. All lines are perfectly end formed using fully automatic hydraulic end forming machines. Custom tooling is available for your special application, call with your needs.

We Love Our Customers

We take great pride in helping our customers outfit their daily rides and prized collectibles with high quality, made-to-last parts. We've also learned over the years that our customers are great people and we love to meet them face-to-face. We exhibit at several car shows and automotive events each year – follow us on social media to find out where we'll be and when. Or, stop by our showroom in Lancaster, NY, if you're in the Buffalo area.

Send us your pics of your restoration projects; we love to see our products in action! We just may choose to feature you on our blog or Facebook page. Email your photos and project stories to marketing@classictube.com.

Coils

Tubing in coils is available in Stainless Steel, O.E. Steel, and aluminum (for fuel applications). Stainless steel, original equipment steel is offered without or with fittings (color-coded original steel fittings). All lines are pressure tested and checked for safety.

- Stainless steel tubing is 304 grade, double annealed for easy flaring and bending. Impervious to salt and other corrosive elements, it will maintain its appearance.
- Original Equipment (O.E.) is steel tubing, that is cold-rolled, low-carbon continuously welded. It's protected from the elements by Galfan® galvanizing and a topcoat of aluminum rich epoxy.

O.E. Coils

Part No.	Description
C3	O.E. Steel 3/16" x .028 tube - 25 ft. coils
C4	O.E. Steel 1/4" x .028 tube - 25 ft. coils
C5	O.E. Steel 5/16" x .028 tube - 25 ft. coils
C6	O.E. Steel 3/8" x .028 tube - 25 ft. coils

Stainless Steel Coils

Part No.	Description
C3S	Stainless Steel 3/16" x .028 tube - 20 ft. coils
C4S	Stainless Steel 1/4" x .028 tube - 20 ft. coils
C5S	Stainless Steel 5/16" x .028 tube - 20 ft. coils
C6S	Stainless Steel 3/8" x .028 tube - 20 ft. coils

Aluminum Coils for Fuel Applications

Part No.	Description
AL14	Aluminum Tubing for Fuel Applications - .035 wall, 25 ft. coil - 1/4" Diameter
AL56	Aluminum Tubing for Fuel Applications - .035 wall, 25 ft. coil - 5/16" Diameter

Tube Coil Kits With Fittings

O.E. Steel Coil Kits with O.E. Steel Fittings

Part No.	Description
K3	O.E. Steel 3/16" x .028 tube - 25 ft. coils w/16 assorted Steel ferrule nuts
K4	O.E. Steel 1/4" x .028 tube - 25 ft. coils w/14 assorted Steel ferrule nuts
K5	O.E. Steel 5/16" x .028 tube - 25 ft. coils w/10 assorted Steel ferrule nuts
K6	O.E. Steel 3/8" x .028 tube - 25 ft. coils w/6 assorted Steel ferrule nuts

Stainless Steel Coils with O.E. Steel Fittings

Part No.	Description
K3S	Stainless 3/16" x .028 tube - 20 ft. w/16 assorted Steel ferrule nuts
K4S	Stainless 1/4" x .028 tube - 20 ft. w/14 assorted Steel ferrule nuts
K5S	Stainless 5/16" x .028 tube - 20 ft. w/10 assorted Steel ferrule nuts
K6S	Stainless 3/8" x .028 tube - 20 ft. w/6 assorted Steel ferrule nuts

Stainless Steel Coil Kits with Stainless Steel Fittings

Part No.	Description
K3SS	Stainless 3/16" x .028 tube - 20 ft. w/16 assorted Stainless ferrule nuts
K4SS	Stainless 1/4" x .028 tube - 20 ft. w/14 assorted Stainless ferrule nuts
K5SS	Stainless 5/16" x .028 tube - 20 ft. w/10 assorted Stainless ferrule nuts
K6SS	Stainless 3/8" x .028 tube - 20 ft. coils w/6 assorted Stainless ferrule nuts

Mustang / Cougar Brake & Fuel Tubing Line Clamps

Kits include the correct USA made clips, grommets and screws. Factory correct.

Part No.	Description
C5-6	1965-66 Mustang Disc Brakes - 6 Cylinder (19 Pc.)
C5-8	1965-66 Mustang Drum Brakes - 8 Cylinder (21 Pc.)
C5-D	1965-66 Mustang Disc Brakes - 8 Cylinder (21 Pc.)
C7-61	1967 Mustang / Cougar 1 Pc. Rear Fuel - 6 Cylinder (26 Pc.)
C762C	1967 Mustang / Cougar Convertible 2 Pc. - 6 Cylinder (31 Pc.)
C762H	1967 Mustang / Cougar Hardtop 2 Pc. - 6 Cylinder (32 Pc.)
C781	1967 Mustang / Cougar 1 Pc. Rear Fuel - 8 Cylinder (28 Pc.)
C782C	1967 Mustang / Cougar Convertible 2 Pc. - 8 Cylinder (33 Pc.)
C782H	1967 Mustang / Cougar Hardtop 2 Pc. 8 Cylinder (34 PC.)
C84C	1968 Mustang / Cougar Convertible - 8 Cylinder (32 Pc.)
C86C	1968 Mustang / Cougar Convertible - 6 Cylinder (30 Pc.)
C86H	1968 Mustang / Cougar Hardtop - 6 Cylinder (29 Pc.)
C88C	1968 Mustang / Cougar Convertible - 8 Cylinder (32 Pc.)
C88H	1968 Mustang / Cougar Hardtop - 8 Cylinder (31 Pc.)
C96C	1969 Mustang / Cougar Convertible - 6 Cylinder (32 Pc.)
C96H	1969 Mustang / Cougar Hardtop - 6 Cylinder (31 Pc.)
C98C	1969 Mustang / Cougar Convertible - 8 Cylinder (34 Pc.)
C98H	1969 Mustang / Cougar Hardtop - 8 Cylinder (33 Pc.)
DO6C	1970 Mustang / Cougar Convertible 6 Cylinder (36 Pc.)
DO6H	1970 Mustang / Cougar Hardtop 6 Cylinder (35 Pc.)
DO8C	1970 Mustang / Cougar Convertible 8 Cylinder (37 Pc.)
DO8H	1970 Mustang / Cougar Hardtop 8 Cylinder (37 Pc.)
DOCV	1970 Mustang / Cougar Convertible - Vapor 8 Cylinder (38 Pc.)
DOHV	1970 Mustang / Cougar Hardtop - Vapor 8 Cylinder (37 Pc.)
D16DR	1971-73 Mustang / Cougar - 6 Cylinder (41 Pc.)
D18DC	1971-73 Mustang / Cougar Disc Brakes - 8 Cylinder (45 Pc.)
D18DR	1971-73 Mustang / Cougar Drum Brakes - 8 Cylinder (45 Pc.)

Single Line Clamps

Steel Zinc Plated

Part No.	Description
CLP-1	Rubber Insulated Tubing Line Clamps 3/16"
CLP-2	Rubber Insulated Tubing Line Clamps 1/4"
CLP-3	Rubber Insulated Tubing Line Clamps 5/16"
CLP-4	Rubber Insulated Tubing Line Clamps 3/8"

Stainless Steel with Stainless Steel Screws 12 per pack

Part No.	Description
CLPS-1	3/16" - 12 per Pack Includes Stainless Steel Screws
CLPS-2	1/4" - 12 per Pack Includes Stainless Steel Screws
CLPS-3	5/16" - 12 per Pack Includes Stainless Steel Screws
CLPS-4	3/8" - 12 per Pack Includes Stainless Steel Screws
CLPS-5	1/2" - 12 per Pack Includes Stainless Steel Screws

Double Line Clamps

Stainless Steel with Stainless Steel Screws 6 per pack

Part No.	Description
CLPS-1-1	3/16" - 6 per Pack Includes Stainless Steel Screws
CLPS-2-2	1/4" - 6 per Pack Includes Stainless Steel Screws
CLPS-3-3	5/16" - 6 per Pack Includes Stainless Steel Screws
CLPS-4-4	3/8" - 6 per Pack Includes Stainless Steel Screws
CLPS-5-5	1/2" - 6 per Pack Includes Stainless Steel Screws

ACCESSORIES / TOOLS

Brake Fluids

Safety Notice: Brake fluid, except for silicone DOT 5, should be changed every year. There is 2% water absorbed into your braking system over a 1-year time period. This is a major safety issue that must be addressed. Don't take any chances – change your brake fluid at least once per year under regular driving conditions.

Silicone Brake Fluid, DOT 5
1103
Dry Boiling Point 600°F, doesn't harm painted surfaces.
Never needs to be replaced. For street or show.
Not compatible with regular brake fluid.
Sold in 1 quart containers.

Combination Valves

GM Disc/Disc Combination Valve
BR9030
Used on factory 4 wheel disc brake vehicles from 1971 to 1982 to replace original. Also use when adding disc brakes with conversion kits.

GM Disc/Drum Combination Valve
BR9020
Used on factory front disc/rear drum brake vehicles from 1971 to 1982 to replace original. Also use when adding disc brakes with conversion kits.

Ford Disc/Drum Combination Valve
BR9071
1970 to July 1972 Mustang - Cougar - Fairlane - Torino Brake Pressure Differential Valve Power Disc with Stop Light Switch

Adjustable Brake Proportioning Valves

Proportioning Valve, Knob Style
0707W
The new generation of adjustable proportioning valves combines the latest refinements to deliver precise pressure metering and strength from a compact forged billet design. Pressure adjustments range from 100-1000 PSI and provide for a maximum decrease of 57% in line pressure, the most of any available valve. Adjuster knob with fine thread tuning provides precise pressure adjustment. This adjustment lets you fine tune the front to rear braking balance by proportionally decreasing the rear brake line pressure. Valves weigh only 5.2 ounces and have two .25" side mounting holes spaced 1.00" apart. Standard in and out ports are 1/8-27 NPT.

Combination Proportioning Valve
0730W
Simplifies mounting, plumbing, wiring and brake proportioning adjustments on vehicles with custom brake systems. The combination block maintains full isolation between front and rear fluid circuits and can be used in conjunction with any tandem outlet or dual mount master cylinder assemblies. The rear circuit has a single inlet and single outlet with the adjustable proportioning valve. The front circuit has a single inlet with two outlets. It can be run as a single outlet with one outlet plugged, or used to split the plumbing on its way to the front calipers.

Residual Pressure Valves

Used to retain minimum brake line pressure eliminating excessive brake travel. Available for drum and disc brake applications.

2 lb. Valve
7640
Used for disc brake systems when the master cylinder is below the horizontal plane of the calipers

10 lb. Valve
7650
Used for drum brake systems when the master cylinder is below the horizontal plane of the wheel cylinders

Ford Mustang Accessories

Part No.	Year	Description
375690-S	1965	Trim Screw Cap Covers For Trunk Screws - Fastback 2+2 - Clear Plastic
380865-S	1966	Trim Screw Cap Covers For Trunk Screws - Fastback 2+2 - Gray Plastic

Tools

Brake Bleeding Kit
19200
Easy to use; includes hose, canister and adapters.
One-man brake bleeding kit.

ACCESSORIES / TOOLS

Flaring Tools

Universal Hydraulic Flaring Tool Kit
7207
This kit fabricates:

Push Connect Flare:	1/4", 5/16" and 3/8"
GM Fuel Line Flare:	5/16" and 3/8"
Single Flare/Double Flare:	3/16", 1/4", 5/16", 3/8" and 1/2"
Bubble Flaring:	3/16", 1/4", 5/16" and 10mm

Comes in molded box.
For Stainless Steel and other materials. If you've had trouble making flares on Stainless before, you probably had the wrong tool.

Tube Straightener

Tube Straightener
BQ1025
Straightens tubing coils in preparation for bending. This tool will straighten light-wall tubing coils from 3/16" to 1/2" OD. Simply use the bracket to secure tool with a vise. Feed the coiled tubing into one end and straight tubing will come out the other end. Just cut to the length you need, and you are ready to begin your project.

Tube Bending Tools

Tube Bending Hand Tool
3755
Bends 3/16", 1/4", 5/16" and 3/8" diameter tubing. Bends up to 135°, featuring long handles for easy bending. Heavy Duty. Made in USA

Lever Type Tube Benders For 1/8" to 1/2" O. D. Tubing
These tube benders feature an open side which slips over tube at any point and makes smooth, tight radius bends up to 180° with minimum effort with no scoring or flattening of tubing. It is calibrated to show angle of bend and has a wide hook that grips tubing securely. Each tool bends one size.

Part No.	Tube O.D.	Radius to Center of Tube
3700	1/8"	3/8"
3760	3/16"	7/16"
3765	1/4"	9/16"
3770	5/16"	11/16"
3775	3/8"	15/16"
3780	1/2"	1-1/2"

Swivel Handle Tube Benders For 1/4" to 1/2" O. D. Tubing
Features a swivel handle that can be repositioned midway through a bend when both handles begin to meet. This allows easily fabricated bends up to 180° with better control and without the crossing of handles as in most tube benders.

Part No.	Tube O.D.	Radius to Center of Tube
3810	1/4"	9/16"
3815	5/16"	11/16"
3820	3/8"	15/16"
3825	1/2"	1-1/2"

HOSE KITS - DOMESTICS

Any brake or hydraulic clutch can be fitted with Classic Tube's Pre-Assembled Hose Kits. Included are StopFlex Stainless Steel Braided Hose in the length you need, along with your choice of hose ends. StopFlex incorporates a special 3-layer design for superior strength and virtually no volumetric expansion. It starts with a Teflon® PTFE core (liner) followed by the stainless steel braid and a clear vinyl outer cover.

Replacing original equipment rubber hoses with StopFlex stainless steel braided hoses will increase braking performance by doing away with the soft spongy brake pedal. Rubber hoses expand, with the approximately 1200 psi. generated under hard braking. StopFlex results show a firmer pedal, allowing more control during braking.

- DOT Compliant for street use
- Minimal volumetric expansion
- Immediate response; not soft as with other hoses
- Corrosion resistant

If factory-correct style is desired, any StopFlex braided hose kit can also be made in rubber.

Fitting Kits

Part No.	Description
BR9000-SAE	Brass Brake Fitting Kit

- 3/16" Female Inverted Flare Union (10)
- 1/4" Inverted Flare Union (10)
- 3/16" Female Inverted Flare x 1/4" Male Inverted Flare (6)
- 1/4" Female Inverted Flare x 3/16" Male Inverted Flare (6)
- 1/4" Female Inverted Flare x 9/16-18 male Inverted Flare (2)
- 3/16" Female Inverted Flare x 1/2-20 Male Inverted Flare (6)
- 3/16" Female Inverted Flare x 9/16-18 Male Inverted Flare (4)
- 1/4" Female Inverted Flare x 1/8" Male NPT (2)
- 3/16" Female Inverted Flare x 1/8" Male NPT (2)

SS7000-SAE Stainless Steel Brake Tube Nut Kit

- 3/8-24 Male for 3/16" Tube (30)
- 7/16-24 Male for 1/4" Tube (14)
- 9/16-18 Male for 3/16" Tube (10)
- 1/2-20 Male for 3/16" Tube (10)
- 7/16-24 Male for 3/16" Tube (8)
- 9/16-18 Male for 1/4" Tube (8)
- 1/2-20 Male for 1/4" Tube (8)
- 3/8-24 Male Lucas for 3/16" Tube (6)
- 3/8-24 Female for 3/16" Tube (6)

S.A.E. 37° AN Sizes

Dash sizes are numerators of fractions with a denominator of 16. *Example: -6 AN is equal to 6/16" (which equals 3/8")*

N.P.T. Pipe Thread Tapered

1/8"– 27 threads per inch
1/4"– 18 threads per inch
3/8"– 18 threads per inch
1/2"= 14 threads per inch

Concave Seat
For use with I.S.O. Bubble Flare

Convex Seat
For use with S.A.E. Double inverted flare

BUILD YOUR OWN HOSE ENDS. Use StopFlex pre-made hose sections and add the fittings you need. Clear vinyl covering protects all –3 AN hose assemblies.

STAINLESS STEEL EXHAUST TUBES

304 Stainless Steel 16 Gauge (.065)

Stainless steel tubes combine excellent physical properties with remarkable resistance to the corrosive agents found in exhaust emissions. 304 stainless steel is the most cost-effective grade of non-magnetic stainless steel for general applications.

Straight Lengths

Straight tubes are sold by the foot, based on the total length of the tube. It is cut to the length you specify. Lengths up to 8 feet can be shipped FedEx.

65-90-500-52	5" Diameter	5.2" Radius Legs 6" x 9"

For U-bends and J-bends

Determine the Center Line Radius (CLR) by measuring across the outside edges of the bend, subtracting the tubing O.D., and dividing by 2.

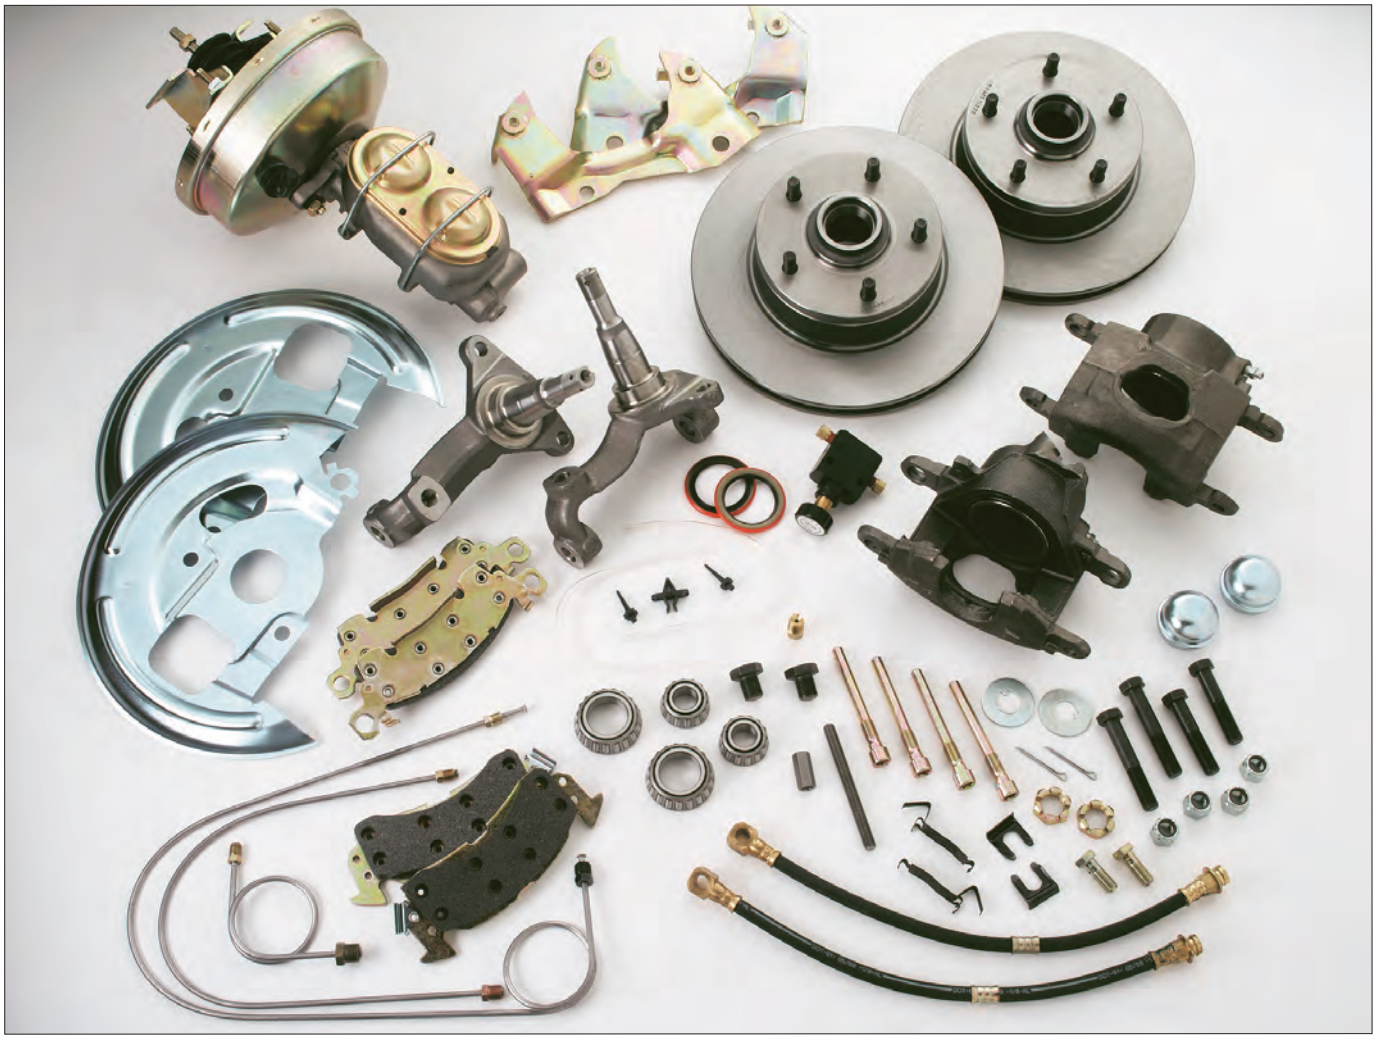

The above tubing is also available in 6061 Aluminum 16 Gauge (.065). Please call 1-800-882-3711 for details.

Leg lengths are approximate; usually within +/– .25"

 For Aluminum: Use 5356 filler rod for maximum strength. Use 4043 filler rod for maximum corrosion resistance.

DISC BRAKE CONVERSION KITS

For drum to disc brake conversions with or without an upgrade to larger wheels, Classic Tube offers conversion kits which include all necessary brackets, rotors, calipers, pads, lines, hardware and instructions. All kits bolt on, with no welding or machining required.

We can also custom manufacture complete brake line kits incorporating the aftermarket components of disc brake conversion kits to finish your project correctly.

We can also Build StopFlex Stainless Steel Braided Hoses – D.O.T. Compliant – for these kits. StopFlex Hoses offer a much firmer pedal and superior braking efficiency than the alternatives.

We Have Kits to Upgrade Brakes on These Popular Models and More:

1967-74 Camaro
1965-74 Chevelle/ Malibu / El Camino
1964-72 Cutlass / 442
1967-74 Firebird
1965-72 LeMans / GTO / Tempest
1955-58 BelAir / Impala / 210
1962-72 Nova / Chevy II
1965-72 Skylark / GS / A-Body
1963-72 Fairlane / Falcon V8 / Comet
1965-72, 1979-93 Mustang / Cougar

Front and/ or Rear Kits are available.

For select years of the **Ford Mustang and Mercury Cougar**, we also offer **Spindle Mounting Kits, Power Brake Boosters** and **Brake Pedals**. Call us at 800.882.3711 or visit our website at ClassicTube.com for complete details.

Call toll-free in the continental U.S.

BY INTERNET

www.ClassicTube.com
Order online 24 hours a day, 7 days a week.

BY FAX

716-759-1014
Available 24 hours a day, 7 days a week. Please include a phone number where you can be reached during the day with your fax order.

BY MAIL

All mail orders must be pre-paid including freight. Use your credit card, money order or cashier's check. Call us at 800-882-3711 during regular business hours with any questions.

All prices and products are subject to change without notice.

PAYMENT

Classic Tube Accepts VISA and MasterCard. When placing your order, be sure to indicate the cardholder's name, the credit card billing address, shipping address, home phone, phone where you can be reached during the day, credit card number and expiration date – and your name if different from person charging the order.

Personal Checks
To use personal or business checks to pre-pay orders, the name, address, and check number must be pre-printed on the check. Only first party checks will be accepted. Inquire about approval when placing your order. All orders paid by personal check are held pending bank clearance.

SALES TAX

Orders outside New York State are not required to pay sales tax. NY residents must add the appropriate current sales tax based on your county tax percentage, or if the customer picks up the order.

RETURNS

Should you need to return a part for refund, exchange or credit, please contact customer service for a return authorization number (RA) and instructions. Returned items must be in new, unused, resalable condition and must be accompanied by a copy of the invoice and RA number for us to process any claim. Classic Tube will not accept returned goods without a prior RA number. Freight charges are not refundable and customers will pay freight on all return orders. Returns may be subject to restocking fee of up to 15%.

PRODUCT WARRANTY

Classic Tube warrants its manufactured products to be free from defects in material and workmanship under normal use and service. Our obligation under this warranty is limited to one year from date of purchase. Under our warranty, we will make good at our factory any part which may be returned to us with transportation charges prepaid, and which our examination shall disclose, to our satisfaction, to have been defective when shipped. Our obligation will be limited to the repair or exchange of any part(s) which may prove defective, as well as ground service freight charges back to the customer.

PRODUCT LIABILITY

By placing an order with Classic & Performance Specialties Inc. DBA Classic Tube, the customer accepts that Classic Tube shall not be held liable for any and all damages, injury, loss and other claims, resulting from the inability, use or misuse of the product. Buyer or user accepts liability of all kinds associated with the use of all products.
For full Conditions of Sale, visit www.classictube.com/contact-us/terms.html

SHIPPING

Shipments are by FedEx ground delivery. These carriers require a street address, they will not deliver to a P.O. Box. The carriers make three attempts to deliver before returning the order to Classic Tube. If no one is available to accept the merchandise, a notice will be left with further instructions. Shipping by U.S. Mail used upon request only.

FedEx Oversized
For OS (oversized) items that can be shipped via FedEx, oversize rates apply. OS items are charged in accordance with the FedEx Dimensional Weight Formula (the average weight plus size and girth). Many products listed in this catalog are oversized. We reserve the right to charge an oversize fee on any order with a product that is oversized.

FedEx Next Day, 2nd and 3rd Day Air Delivery
Classic Tube offers FedEx Next Day, 2nd and 3rd Day Air Delivery which is available in the Continental U.S., Hawaii, and Alaska. The cost of these delivery options is greater than normal FedEx ground delivery and is based on FedEx Dimensional Weight Formula. Prepayment on credit card is required prior to shipment. Call your sales representative for rates.

Damages Claims
Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify FedEx so that all the steps necessary will be taken to insure a prompt replacement of any damaged goods. Notify Classic Tube's customer service department for instructions on returning damaged goods. Classic Tube is not responsible if notification is not given within 5 days of receipt.
